Project Communication N° 3

IDIH Week 2022 was a success: find the event material in case you missed it !

April 22

The IDIH Week 2022 has been a 4-day online event dedicated to researchers, innovators, care providers and users' associations dealing with Digital Health for Active and Healthy Ageing (AHA).

Information, Partnering, and Innovation sessions as well as Regional Workshops have been held between March 21 and March 24, involving the key stakeholders of digital solutions for AHA in Europe and beyond, reaching organizations from Canada, China, Japan, South Korea, USA, and more!

This initiative has contributed to further enlarging our IDIH Community, now counting more than 400 stakeholders in the field. Register and explore [here](#) our Community to find your international partner!

We are delighted to share here some materials, key highlights and results of the IDIH Week 2022 (March 21 – March 24)!

Info Day | March 21, 2022

An occasion to explore the findings of the [IDIH Digital Health Transformation Forum](#), discover the IDIH products and get aware of the project's progress towards its sustainability. Some highlights on current opportunities for international cooperation in the field of Digital Health for Active and Healthy Ageing (AHA) have been also presented.

The full presentation material is available [here](#).

Replay of the session is available [here](#).

US Regional Workshop | March 21, 2022

This Workshop intended to explore the **impacts of COVID-19 on Active and Healthy Ageing (AHA)**, with a special focus on Independent and Connected Living where there have been surges in innovation while progress has stalled as resources are shifted. Thanks to different perspectives, such as those of start-ups, investors, and the patients themselves, the workshop aimed to survey a broader range of the relevant R&I landscape in the United States. In particular, by taking into consideration the findings of the [IDIH Digital Health Transformation Forum](#), around the areas of *Data Governance*, *Digital Inclusion*, *Interoperability-by-design*, a Panel Discussion reflected on how they might be impacted in a post-COVID 19 scenario.

The full presentation material is available [here](#).

Replay of the session is available [here](#).

Partnering Days | March 22 & 23, 2022

Partnering Days were dedicated to the presentation – through a short pitch – of ongoing projects (for results dissemination/exploitation purposes), new project ideas and expertise offers/requests by the organizations working in the field of Digital Health for AHA. Sessions were respectively dedicated to Asian and American audiences.

The full presentation material presented during Day 1 is available [here](#). Material presented during Day 2 is available [here](#).

Replay of Partnering Day 1 available [here](#).

Replay of Partnering Day 2 available [here](#).

Japan Regional Workshop | March 23, 2022

With the participation of the Ministry of Internal Affairs and Communication, in charge of *Horizon* in Japan, this Workshop (in Japanese with English subtitles) intended to explore **how Japan is facing Digital Transformation for a rapidly ageing society**, with a focus also on *Data sharing and security*. A panel discussion has been held, then, with some key players in the R&I landscape in Japan, reflecting on how to eliminate the Digital Divide, without anyone left behind.

The full presentation material is available [here](#).

Replay of the session is available [here](#).

Innovation Day | March 24, 2022

Starting from the findings of IDIH Experts – gathered in the **IDIH Digital Health Transformation Forum** – this event was the occasion to address Digital Health for Active and Healthy Ageing focusing on the three areas suggested by the IDIH Experts for enhancing international cooperation in the field: *Data Governance, Digital Inclusion, Interoperability-by-design*. Thanks to the participation of the **eVita project** and the **North American Chapter International Society for Gerontechnology**, 2 Panel Discussions have explored these areas highlighting tech challenges and opportunities offered by collaborative research at the international level. 2 co-creation sessions have followed.

The full presentation material presented in Session 1 is available [here](#). Material presented during Session 2 is available [here](#).

Replay of Innovation Session 1 available [here](#).

Replay of Innovation Session 2 available [here](#).
